

Burial vaults and grave liners are outer burial containers that enclose a casket in a grave. In the case of ground burial, most cemeteries including Memorial Park Cemetery require either a burial vault or concrete grave liner, in addition to the casket or urn.

Burial vaults and concrete grave liners are used to support the soil around the casket or urn and ensure that the soil will not collapse, which ultimately serves to minimize cemetery maintenance and keep the cemetery grounds looking nice.

#### *Basic Features of Outer Burial Containers*

Burial vaults are outer containers that contain a casket if it is buried in the ground. A burial vault is designed to completely contain the casket and keep it dry. The concrete box contains the casket and is designed to allow rain water to drain out of the bottom.

#### *Outer burial Container Materials*

Outer burial containers are often made of concrete and lined with plastic or metal, though they are also available in steel, bronze, and copper.

#### *Burial Vaults for Cremated Remains (Urn Vaults)*

Urn vaults are designed to contain the cremated remains and are much smaller in size (as they only need to contain an urn, rather than a casket), and are therefore more affordable.

CLARK STEEL VAULTS, REINFORCED CONCRETE VAULTS, AND URN VAULTS

## Clark Steel Vaults

**12 GA Solid Copper**  
 Inside Measurements:  
 30.5" x 86" x 24.5"  
 Color: Rose

**12 GA Stainless Steel**  
 Inside Measurements:  
 30" x 86" x 24.5"  
 Colors: Blacksilver, Rose

**7 GA Galvanized**  
 Inside Measurements:  
 30" x 86" x 24.5"  
 Colors: Clear Statuary, Clear Silver,  
 Clear Blue

**10 GA Galvanized**  
 Inside Measurements:  
 30" x 86" x 24.5"  
 Colors: Clear Statuary, Clear Silver,  
 Whiterose

### WHY YOU NEED TO CONSIDER A DORIC LINED CONCRETE BURIAL VAULT

**QUALITY FEATURES**

- STEEL REINFORCED COVER
- DORIC LINED VAULT
- BASIC GRAVE LINER
- BUTYL TAPE SEAL
- ABS POLY-RIBBED LINER

The backhoe, the preferred choice to open a grave, can weigh over ten tons. This weight, the daily grind of cemetery equipment and the constant forces of soil pressure reinforces the need for protection. There is Peace-of-Mind in knowing that Doric manufactures the strongest lined concrete burial vaults available.

## Reinforced Concrete Vaults

**Doric Bronze (200 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, bronze inner liner, matching bronze carapace. Bar handles add subtle elegance. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

**Lydian (150 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, copper inner liner for extra strength, matching copper carapace. Bar handles add subtle elegance. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

**Athenian (125 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, stainless steel inner liner, matching carapace for added strength. Bar handles add subtle elegance. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

**Patrician (100 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, lustra-tech liner, strengthening ribs on all sides for added protection. Bar handles add subtle elegance. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

**Tiara (80 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, Durapreme plastic liner, strengthening ribs for added protection. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

**Titan (70 Year Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, Durapreme plastic liner, strengthening ribs for added protection. Emblems, nameplates, and personalized available. Integra-Seal butyl sealant.

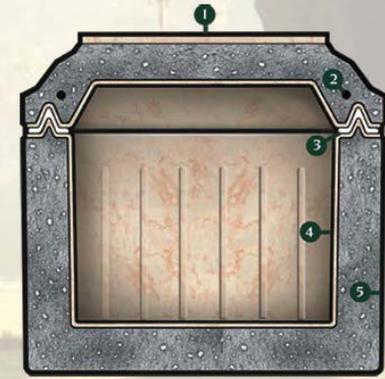

**Delphi (No Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete, painted exterior finish. Unlined interior. Integra-Seal butyl sealant.

**Concrete Box (No Warranty)**  
 Inside: 30" x 86". Steel reinforced concrete. Unlined interior.

## THE ANATOMY OF A DORIC VAULT

1. Decorative carapace for added strength
2. Steel reinforced lid for added strength
3. Doric's Integra-Seal forms an extra barrier from moisture after the vault is sealed
4. Inner liner of tough ABS Fiberlon, Lustra-tech, or Durapreme firmly bonds to the reinforced concrete base and lid
5. Exterior of vault has a hand-applied water resistant coating

## Urn Vaults

**Executive Series**  
 Handcrafted cultured marble beautiful hi-gloss finish with an optional stainless steel metal liner.

Available in five different colors:

- ◆ Black/White
- ◆ White/Pink
- ◆ Jade/Black
- ◆ White/Gold
- ◆ Ruby/Gray

**Basic Urn Vault**  
 Constructed from non-biodegradable white polystyrene with a flocked interior.
